

## Position Paper Iowa County Republicans

- We are republicans because we believe in republican principles, not because we think the Republican Party is perfect or free of bad actors. The character of the party is a result of the collective character of its individual members and we must be involved to make it better.
- We are republicans because America was founded as a Republic and the United States Constitution guarantees a “republican form of government” (Article IV, Sec. 4).
- We are very encouraged by the general direction the Republican Party is taking toward moral values, decentralization, and freedom. We are working to make it even better.
- We are republicans because the republican form of government, as set up by our founders, provides the best foundation for order, stability, prosperity, and freedom.
- We are republicans because we believe, as did the founding fathers, that pure democracy is capricious and fickle, a characteristic which leads to chaos, instability, vulnerability and destruction.
- We are very concerned about those in government with totalitarian and tyrannical tendencies. especially those who use crises as an excuse to expand governmental power, globalism, and control over the people at the expense of freedom and economic well being.
- We support the right to peaceably assemble and voice grievances, but we condemn the violence we have seen which is being used to advance a leftist agenda. *Order Out Of Chaos* is a motto that has been used by many in history who have instigated terror and crises to justify invasions, suspend liberties, and establish new orders.
- We believe there are socialist operatives infesting much of the media, our institutions of learning, and the bureaucracy of our government who have been working toward socialist/globalist goals for many years, but people are waking up to what is going on.
- We do not believe it is essential that you support or join the Republican Party — that is a matter of preference. We do believe it is essential that you support this republic called the United States of America and help make it great again — that is a matter of freedom.

**President Trump has taken a stand and is working to uproot socialism and restore the foundations of our republic but it is difficult because of those in Congress who attempt to block his every move. In the coming election, please vote Republican so President Trump can remain in office and have a Congress that will support his efforts.**
